In each race, each yacht will be credited with the number of points from US Sailing's Cox-Sprague Scoring System. Each yacht's total score will be divided by the sum of the scores of the winners of the race in which it starts. The highest resulting score wins. No points will be awarded for boats that are scored DNS. **The intention of this award is to encourage participation in historic Grosse Ile area races.** If a boat with more DNS scores has a higher percentage of winning than a boat with less DNS scoring codes, bonus points will be awarded to the boat with more participation in order to award the boat that had higher participation.
